40 YEARS OF  
EXCELLENCE

**ALUMINCO**<sup>®</sup>  
ALUMINIUM BUILDING SYSTEMS

**40 years offering innovative and sustainable solutions for architectural aluminium systems. And we keep on going!**

Since 1982, targeting the international community of architects, designers, engineers, construction perfectionists and fabricators, ALUMINCO offers a complete range of architectural aluminium solutions that are innovative, energy efficient and sustainable, embodying top quality, high functionality and contemporary design standards.

In Aluminco we implement Quality, Environmental, Occupational Health and Safety, and Energy Management Systems certified according to international standards ISO 9001, ISO 14001, ISO 45001 and ISO 50001 respectively, as well as Factory Production Control System certified according to EN 15088, EN 1090 and Qualicoat Seaside Class. All our product series are approved by certified by internationally recognized institutes for their outstanding characteristics and performance.

**Depuis 40 ans Aluminco propose des solutions innovantes et durables pour les systèmes architecturaux en aluminium. Et on continue !**

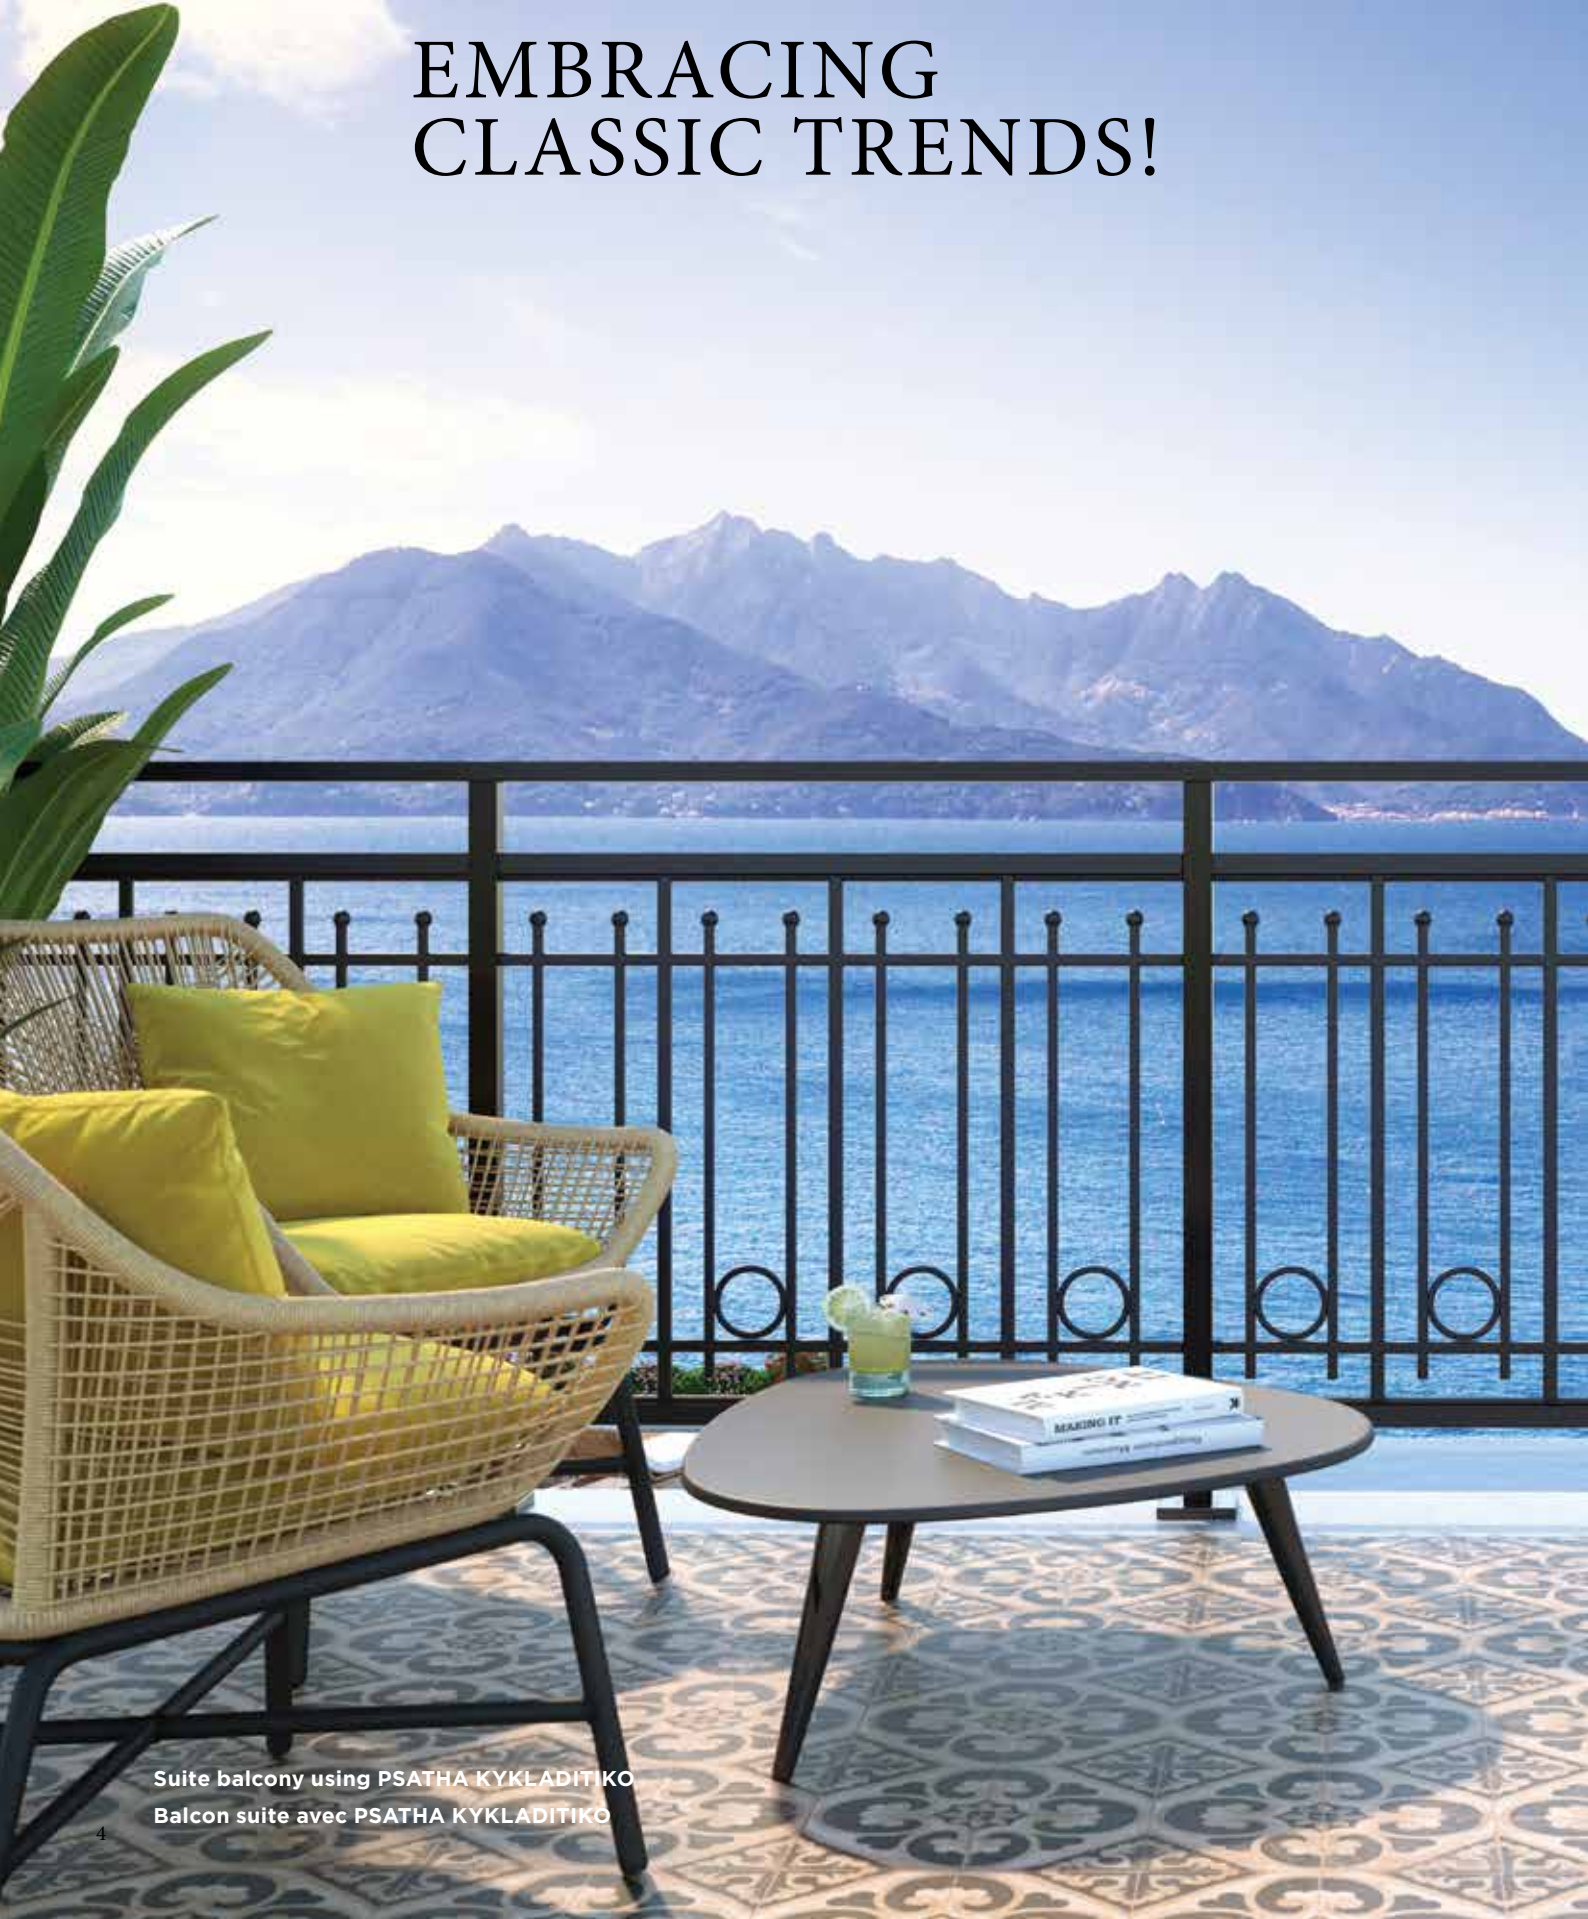

Depuis 1982, ciblant la communauté internationale des architectes, designers, ingénieurs, professionnels de la construction et fabricants, ALUMINCO propose une gamme complète de solutions architecturales en aluminium innovantes, écoénergétiques et durables toute en incarnant une qualité supérieure, une fonctionnalité élevée et des normes de conception contemporaines.

Chez Aluminco, nous mettons en œuvre des systèmes pour la gestion de la qualité, de l'environnement, de la santé et de la sécurité au travail. Notre usine est de ce fait certifié selon les normes internationales ISO 9001, ISO 14001, ISO 45001 et ISO 50001. Également le contrôle de la production est certifié selon les normes EN 15088, EN 1090, les certifications Qualicoat, Qualimarine, et Qualanod font également partie de notre gestion de qualité. Afin de répondre à toutes les normes de sécurité différentes en vigueur, nos produits sont certifiés par des instituts internationalement reconnus.

# EMBRACING CLASSIC TRENDS!

Suite balcony using PSATHA KYKLADITIKO  
Balcon suite avec PSATHA KYKLADITIKO

The panoramic view over Ionian Sea and the green hillsides that tumble down to blue-green seas is splendid, but it is not the only memorable feature that this balcony has to offer.

Selecting Classic Railings, have made this home a State-of-the-art!

La vue panoramique qui donne à la mer Ionienne ne serait pas aussi surprenante et appréciée sans le “regarde” au travers de ces garde-corps?

Grace aux garde-corps Classic Line votre balcon ou terrasse se transforme a l' espace le plus favorisé.

MAKE A REAL  
STATEMENT!

Our classic collection is built on the know-how of more than 35 years. From commercial buildings to diverse residential styles, each solution is a work of art.

Discover our complete line of classic solutions, the CLS, the ALFLEX and the PSATHA collections.

Durability, quality, and style are assured. Unlimited options that build lasting experiences for outdoor living spaces.

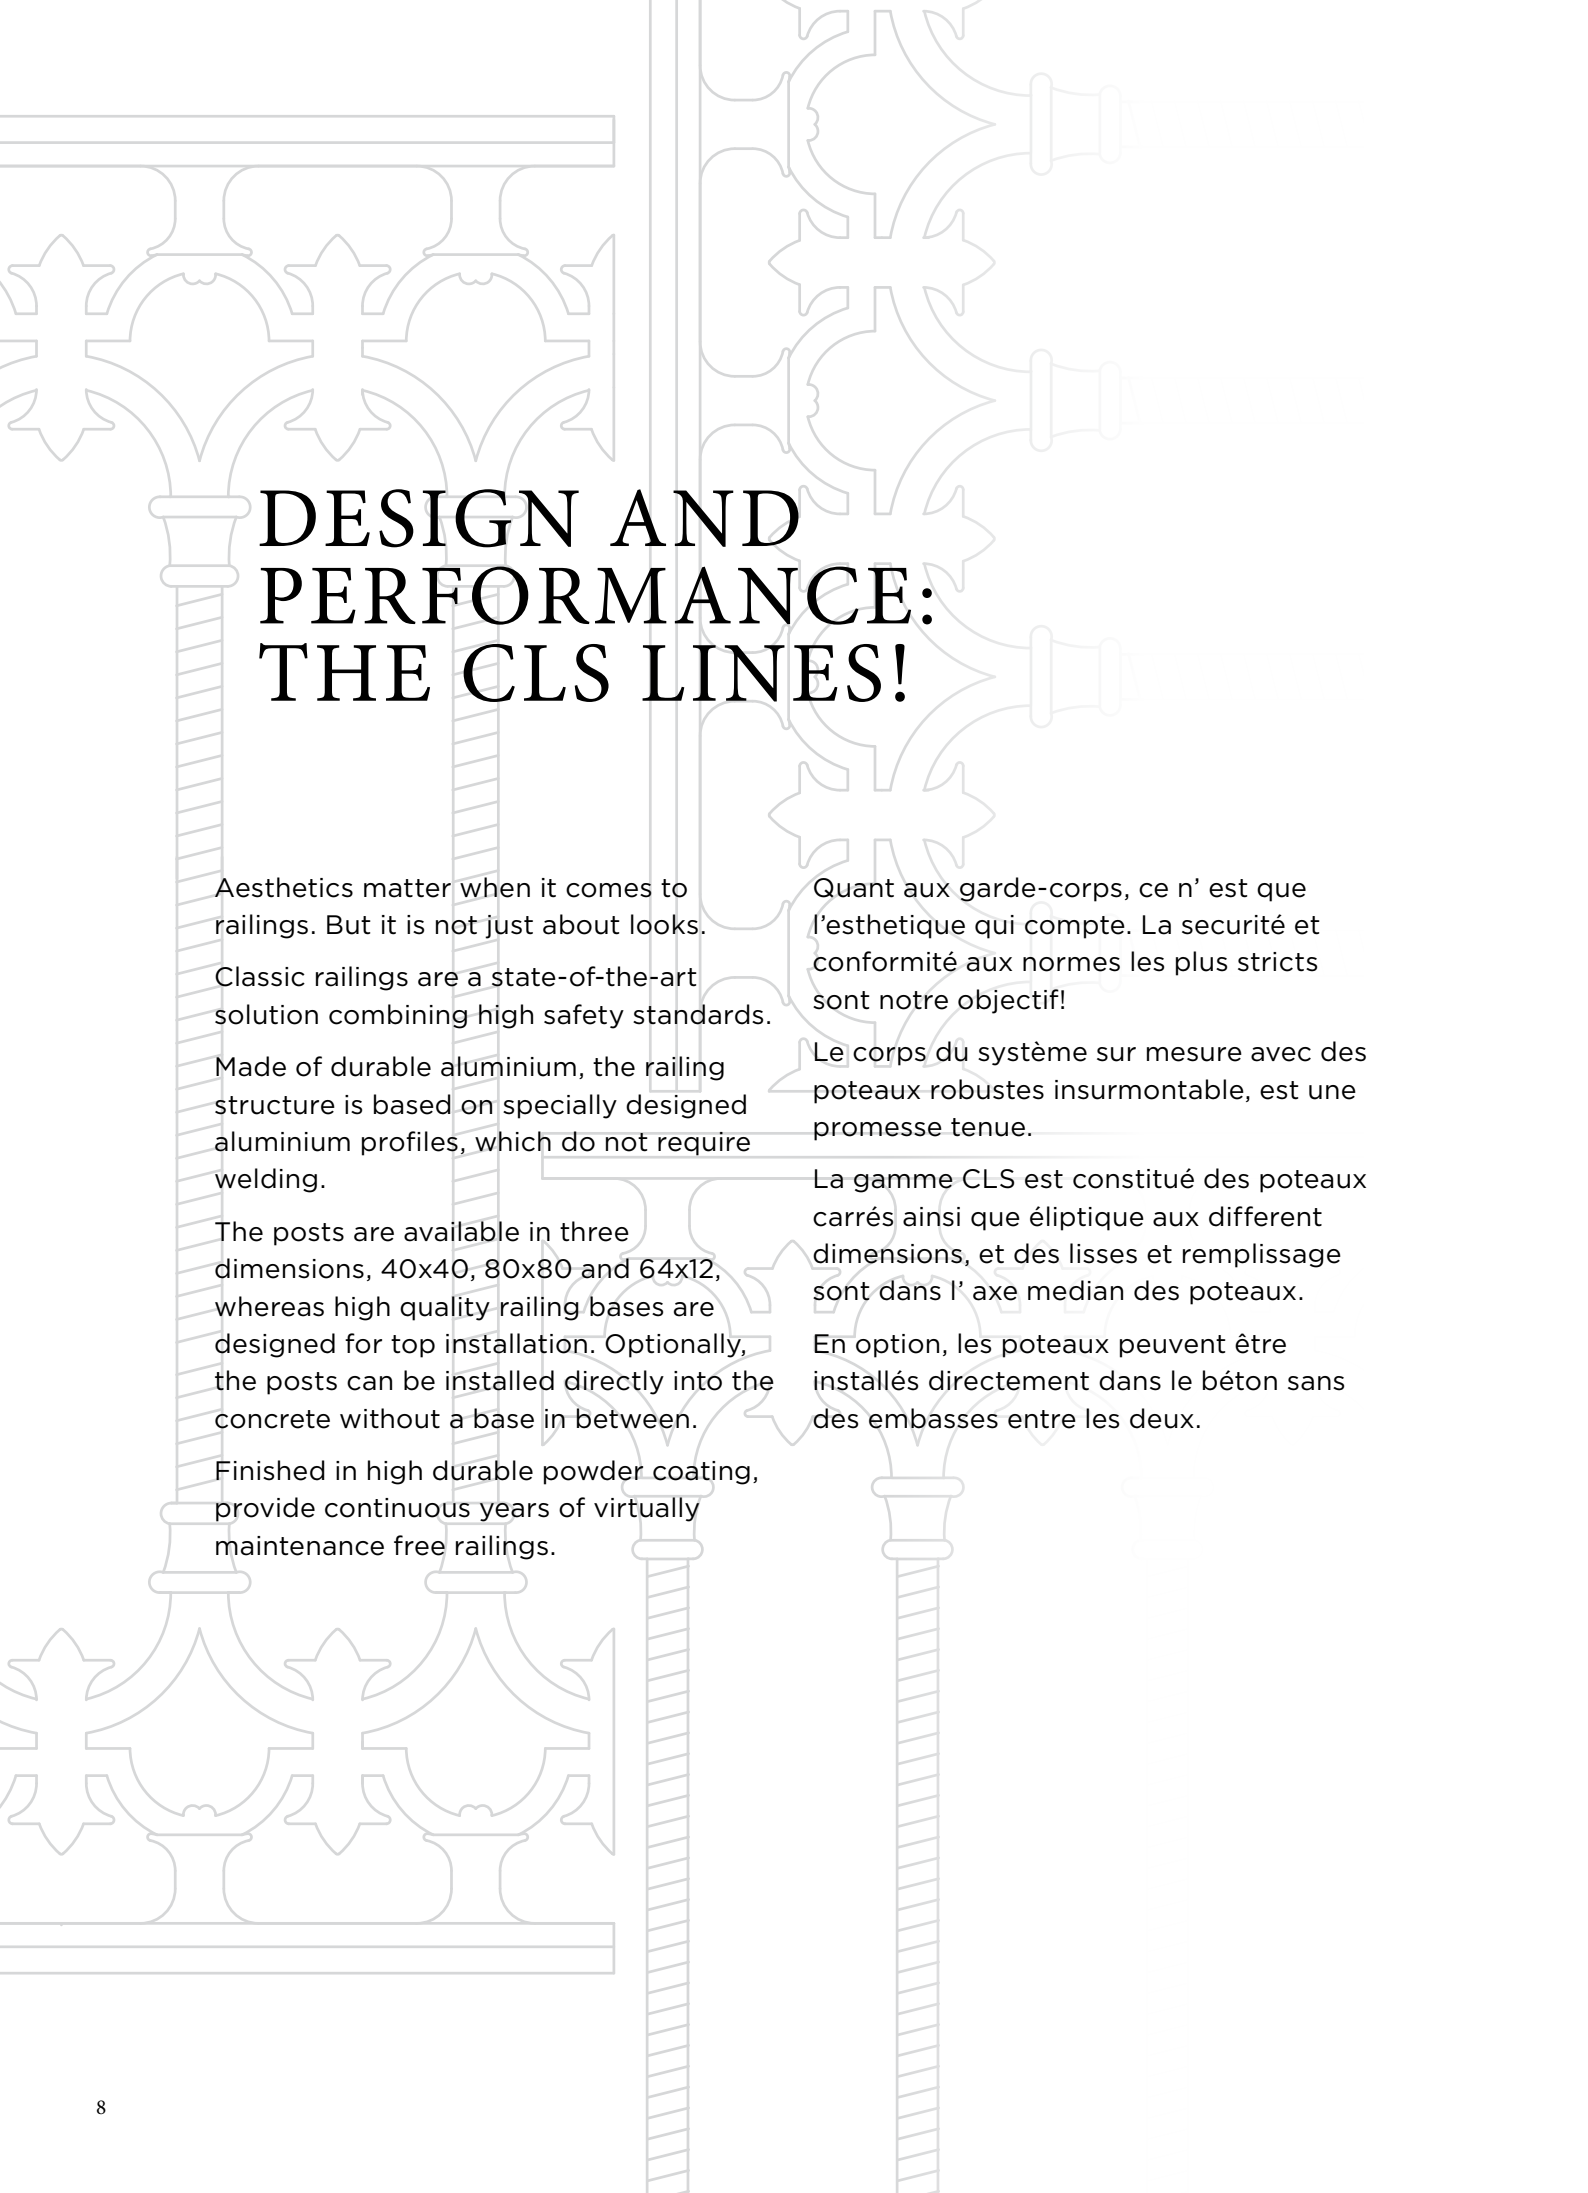

Notre collection classique est basée sur un savoir-faire de plus de 35 ans. Dès bâtiments commerciaux jusqu'aux divers styles résidentiels, chaque solution est un véritable œuvre d'art.

Découvrez notre gamme complète de solutions classiques, les collections CLS, ALFLEX et PSATHA.

La durabilité, la qualité et l'élégance sont assurés. Des options illimitées créant une expérience durable aux espaces de vie extérieurs.

# DESIGN AND PERFORMANCE: THE CLS LINES!

Aesthetics matter when it comes to railings. But it is not just about looks.

Classic railings are a state-of-the-art solution combining high safety standards.

Made of durable aluminium, the railing structure is based on specially designed aluminium profiles, which do not require welding.

The posts are available in three dimensions, 40x40, 80x80 and 64x12, whereas high quality railing bases are designed for top installation. Optionally, the posts can be installed directly into the concrete without a base in between.

Finished in high durable powder coating, provide continuous years of virtually maintenance free railings.

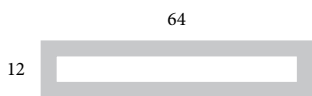

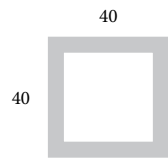

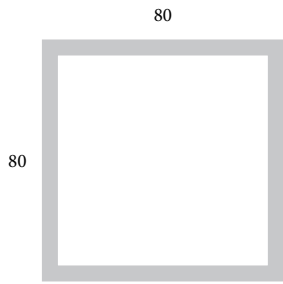

Quant aux garde-corps, ce n' est que l'esthétique qui compte. La sécurité et conformité aux normes les plus stricts sont notre objectif!

Le corps du système sur mesure avec des poteaux robustes insurmontable, est une promesse tenue.

La gamme CLS est constitué des poteaux carrés ainsi que élliptique aux différent dimensions, et des lisses et remplissage sont dans l'axe median des poteaux.

En option, les poteaux peuvent être installés directement dans le béton sans des embasses entre les deux.

# *The CLS edition*

Classic meets  
contemporary style!

The CLS collection epitomizes styling trends of the day: elegant clean lines, vertical to each other, well balanced, square shape to the body and sleek lines.

18 different linear models, available in many configurations, meet any requirement from private homes to commercial buildings and heavy traffic areas.

La collection CLS répond aux tendances stylistiques contemporaines: des lignes épurées et élégantes, verticales les unes par rapport aux autres, bien équilibrées, de forme carrée sur le corps avec une belle surface.

18 modèles différents, s'étendant de haut en bas ou presque, répondent aux tous besoins et à toutes les exigences en terme de conception et de durabilité, garantissant une solution de garde-corps fiable à des différents domaines d'application.

Excitingly unique  
pieces of heritage!

Ocean view balcony using ALFLEX EROTAS  
Balcon vue mer avec ALFLEX EROTAS

The ALFLEX collection was conceived to cater for staircase enclosures apart from balconies and terraces.

As “flexible” is the key word, the series offers 17 different designs and all necessary connectors, to ensure any type of installation possible.

Ideal for new as well as remodelled homes.

La collection ALFLEX a été conçue pour la réalisation des rampes d’escalier ainsi que des balcons et terraces.

Ayant la flexibilité comme objectif, nous avons créé 17 modèles de barreaudage décoratif, qui font le remplissage à l’aide de plusieurs connexions et raccords.

Ideal pour des nouvelles maisons ainsi que pour la rénovation.

*The*  
PSATHA  
*edition*

Classic is always classy!

The PSATHA collection is a real evidence that railings are artworks.

The main purpose of railings is to provide safety and code compliance. Aluminco railings are offering more than that, timeless, classic beauty and unique elegance.

Apartments, hotels and private houses utilize ALUMINCO railings. Whether it is a new building or a remodeled one, classic railings add the finishing touch.

Made from an aluminium frame and support with infills of cast aluminium alloy with the right mechanical properties, our classic railings offer durability against harsh weather conditions and strength even for heavy traffic areas.

La collection PSATHA est une preuve existante que les garde-corps sont des véritables œuvres d'art.

Suite à la nouvelle expression épanouissante d'esthétisme moderne, notre approche de conception sur les balustrades classiques se déroule à des passages frais, mais restant également à la ligne que le classique est toujours chic.

Le corps solide du garde-corps est souligné par les propriétés mécaniques et la résistance intérieure du cadre en aluminium, ainsi que le remplissage couvert des représentations conceptuelles, ajoutant du caractère et du style, et faisant le garde-corps une œuvre d'art. Une balustrade qui ressemble à une vraie sculpture.

Telle est la philosophie derrière la conception de l'édition PSATHA.

Cette philosophie durable garantit des balustrades classiques raffinées toujours construites pour la beauté.

The background features a light gray gradient with faint, white line-art illustrations of architectural profiles. On the left, a dark, solid-colored architectural element is partially visible. The central focus is a large, faint illustration of a classical archway with three columns. The columns have a fluted texture. The arches are supported by decorative brackets with intricate, symmetrical designs. To the right, there is a vertical decorative border with repeating floral or geometric motifs. The overall aesthetic is clean and professional, typical of a technical or architectural catalog.
